INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Newcastle, Rocklin, Gold Hill Cemetery District
Newcastle, California

Opinion

We have audited the accompanying basic financial statements of the governmental activities and each major fund, of the Newcastle, Rocklin, Gold Hill Cemetery District (the District) as of and for the year ended June 30, 2024, and the related notes to the basic financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, except for the effects of the matter described in the Basis for Qualified Opinion section of our report, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of June 30, 2024, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

Management has not recorded the plan assets, liabilities, and deferred inflows and outflows of resources related to the District's Other Post-Employment Benefit (OPEB) plan. Accounting principles generally accepted in the United States of America require the disclosure of all employee benefit plan the plan assets, liabilities, deferred inflows and outflows of resources. The amount by which this departure would affect the assets, liabilities, deferred inflows and outflows of resources, fund balances, and expenditures has not been determined.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Board of Trustees
Newcastle, Rocklin, Gold Hill Cemetery District
Newcastle, California

Auditor's Responsibility

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4 through 10 and 31 through 34 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management's Discussion and Analysis
June 30, 2024**

This section of the annual financial report of the Newcastle, Rocklin, Gold Hill Cemetery District (the District) presents our discussion and analysis of the District's financial performance during the fiscal year ended June 30, 2024. The Management's Discussion and Analysis (MD&A) should be read in conjunction with the District's financial statements, including the notes and the supplementary information that immediately follow this section.

FINANCIAL HIGHLIGHTS

In order to provide a better understanding of the District's financial operations, financial performance, and supplement the information provided in the financial statements, management offers this narrative overview of the financial activities of the District for the fiscal year ended June 30, 2024 (fiscal year 2023-24). We encourage readers to consider the information here in conjunction with the basic financial statements, footnotes, and other supplementary information.

Government-wide net position increased to \$20,495,856 from \$19,223,734 for fiscal year ended June 30, 2024 and June 30, 2023, respectively.

General revenues, primarily taxes and investment earnings, accounted for \$2,673,152 or 83.6% of total revenue for fiscal year ended June 30, 2024, a slight increase from the \$2,340,311 or 85.2% of total revenues for fiscal year ended June 30, 2023.

For fiscal year ended June 30, 2024, total government-wide assets were \$21,605,402, and cash and investments were \$16,085,610, of which \$1,542,817 was restricted. Net capital assets totaled \$4,433,642.

Total cemetery expenses for the fiscal year ended June 30, 2024 were \$1,927,682, which is a 16.3% increase from the \$1,655,190 for fiscal year ended June 30, 2023.

OVERVIEW OF ANNUAL FINANCIAL REPORT

This annual report consists of three parts: management's discussion and analysis, basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements presenting different views of the District.

The government-wide financial statements provide both short-term and long-term information about the District's overall financial status and are composed of the following:

Statement of Net Position

The Statement of Net Position includes all assets and liabilities of the District using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies.

Statement of Activities

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

**NEWCASTLE, ROCKLIN, GOLD HILL
CEMETERY DISTRICT
Management's Discussion and Analysis
June 30, 2024**

These two statements report the District's net position and changes in net position. Net position is the difference between assets and liabilities. This is one way to measure the District's financial health, or financial position. Over time, increases or decreases in the District's net position is one indicator of whether its financial health is improving or deteriorating. To assess the overall health of the District, additional non-financial factors including the condition of the District's buildings and other facilities must be considered.

The fund financial statements provide more detailed information about the District's most significant funds - not the District as a whole. These statements focus on the individual funds of the District, reporting the District's operation in more detail than the government-wide statements while focusing on current operations. Funds are accounting devices the District uses to record specific sources of funding and spending on particular programs. Some funds are required by law and covenants.

Most of the District's basic services are reported in governmental funds which generally focus on how money flows into and out of those funds and the balances left at year end that are available for spending. These funds are reported using the modified accrual accounting basis, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information regarding the governmental fund statements that explain the relationship (or differences) between them.

The District may establish other funds to control and manage money for particular purposes or to show that certain revenues have been properly used.

The fund financial statements are composed of:

Governmental Fund Balance Sheet

This statement details the balance in the District's two active funds:

- The General Fund where all general activity of the District is accounted for; and
- The District's permanent fund, the Endowment Fund, which accounts for the endowment fees collected to provide for long-term operation and maintenance of the District's cemeteries.

EXPENSES:

Employment and Wages

Full-time employees - A 2.5% wage increase was awarded for employees for the 2023-24 fiscal year. CalPERS retirement employer contribution this fiscal year decreased to 10.10% from 8.65% the previous year. PEPRA employer contributions are 7.68%. CalPERS perform annual valuations each year and adjust the employer contribution according to a specific formula.

Maintenance, Supplies, and Office Expenses

Cemetery District maintenance procedures and conditions have remained about the same. Office expenses, and maintenance and grounds supplies increases are attributable to an increase in maintenance of District equipment.

Improvements

During fiscal year 2023-24, the District began planning work for a new pavilion with restrooms at Rocklin Cemetery.

REVENUES:

Sales of plots increased in fiscal year 2023-24 by approximately 25% from last fiscal year. Sales of niches in this fiscal year have increased by 36% over last fiscal year. The District performed 252 total interments this fiscal year as compared to 258 last fiscal year. Of the interments, 82 were full casket interments and 170 were cremation interments.

Vaults are outer burial containers that surround the casket within the grave. There are those that are purchased and installed at the time of the burial, and there are underground burial vaults that are pre-installed when a cemetery section was designed and constructed.

By necessity, the latter vaults are purchased at the same time the plot is sold. Newcastle Cemetery, Section N is the only area within our cemeteries that currently have underground burial vaults. In all other burial sections, vaults are purchased at the time of interment. The District purchases polypropylene (Vantage) adult size vaults and also infant and toddler size vaults that are sold at time of use.

**NEWCASTLE, ROCKLIN, GOLD HILL
CEMETERY DISTRICT
Management's Discussion and Analysis
June 30, 2024**

Underground burial vault sales have increased due to the growing popularity of this newer section at the Newcastle Cemetery. It is the only section at any of the District's cemeteries that offers underground burial vaults in both single and double depth configurations. It also allows upright monuments in selected rows of the section. No other section in any of the District cemeteries can accommodate double depth burials. Any other sections that allowed upright monuments in selected rows are almost completely sold out of this option, so Section N has become a popular selling area. Urn vault sales increased this year to 118 from last year's sales of 116.

Endowment Fund

Endowment funds added to the Endowment Fund this fiscal year amount to \$60,880, an increase from last fiscal year. In addition, the Endowment Fund earned \$78,306. Since July 1984, endowment care is charged at the time of the plot/niche sale. Therefore, if sales of plots and niches are down, endowment care proceeds will likely be less as well. However, on plots sold prior to July 1984, endowment care is collected at the time of burial, once per grave used. Endowment care collected on those plots varies from year to year. Balance of the Endowment Fund cash and investments at June 30, 2024 was \$2,440,019.

FINANCIAL ANALYSIS OF THE DISTRICT

As a non-enterprise government agency, the District does not operate with a profit motive as a private company would. The District follows these operating tenets:

- Price services with the goal of recovering the cost of providing services to its constituents; and
- Consider the price of services with an eye on securing the financial resources needed to maintain and improve the capital facilities used in providing those services, and
- Grow the Endowment Fund to a balance sufficient to generate the necessary investment earnings at a level that will sustain the cemetery in perpetuity.

The financial statements assist a reader in determining whether the District is meeting these goals. In general, net assets provide a realistic indicator of a government's financial position. For fiscal year 2023-24, assets exceeded liabilities by \$20,495,856.

OPERATIONS SUMMARY

Overall, operations throughout fiscal year 2023-24 were routine.

The District's Board of Trustees have, in foresight, planned and reserved funds for operations, development, improvements, and other contingencies so that it can function efficiently in good times and bad.

FUTURE PLANS

The District is presently working with an engineer to design plans to develop a new garden at Rocklin Cemetery as well as to develop a 20-acre parcel at Newcastle.

REQUESTS FOR INFORMATION

This discussion is intended to provide management's perspective on the District's financial position and results of operations. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Board of Trustees, 850 Taylor Road, Newcastle, California 95658.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

Newcastle, Rocklin, Gold Hill Cemetery District (the District) is a special district of County of Placer. The District was formed on May 30, 1927 to provide and maintain burial grounds for residents in the geographical area covered by the District. The basic operations of the District are provided by portions of property taxes paid to the County and sales of burial sites. In the Statement of Revenues, Expenditures, and Changes in Fund Balances, these operations are reflected in the General Fund.

The District's financial statements have been prepared in conformity with generally accepted accounting principles (GAAP). The government accounting standards board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements, statements, and interpretations.

The accounting methods and procedures adopted by the District conform to GAAP as applied to governmental entities.

Basis of Presentation

Government-Wide Financial Statements

The Statement of Net Position and Statement of Activities display information about the District as a whole. They include all funds of the District except for fiduciary funds. The statements distinguish between governmental and business-type activities, if any. Governmental activities are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed as a whole or in part by fees charged to external parties for goods or services. The District does not have business-type funds.

Fund Financial Statements

The District's fund financial statements are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds of the District are organized into three major categories: government, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the District or meets the following criteria:

Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental fund are at least 10% of the corresponding total for all funds of that category or type; and total assets, liabilities, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5% of the corresponding total for all governmental and enterprise funds combined.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of Presentation (continued)

The District reports the following government funds:

General Fund – The General Fund is the general operating fund of the District and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.

Permanent Funds – Permanent Funds report trust arrangements in which the reporting government is the beneficiary of the earnings on the principal.

Major Funds – The District has two funds, both of which are designated as major funds as follows:

General Fund – see above description.

Endowment Fund – A permanent fund that is used to account for endowment fees collected by the District on grave sales which are permanently restricted, and interest earned on endowment funds which are unrestricted.

Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements regardless of the measurement focus applied.

Measurement Focus

On the government-wide Statement of Net Position and the Statement of Activities, governmental activities are presented using the economic resources focus as defined below.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate.

The "current financial resources" measurement focus is used when accounting for all governmental funds. With this measure focus, only current assets and current liabilities generally are included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. Their funds use fund balance as their measure of available spendable financial resources at the end of the period.

The accounting objectives of the "economic resources" measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets and all liabilities (whether current or non-current) associated with the operation of these funds are reported.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Measurement Focus and Basis of Accounting (continued)

In the government-wide Statement of Net Position and the Statement of Activities, governmental accounting activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or the economic asset is used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available". Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The District defines "available" to be within 60 days of year-end. Expenditures, including capital outlay, are recorded when the related fund liability is incurred.

Budgetary Data

The District follows the following procedures in establishing the budgetary data reflected in the financial statements for the general fund:

A proposed operating budget for the fiscal year beginning July 1 is presented to the Board of Trustees at the July meeting. The operating budget includes proposed expenditures and means to finance them.

By August 1, the Board of Trustees adopts a final budget and submits it to the County. The County adjusts the budget to reflect their most current estimates of tax revenues. These adjustments are automatically accepted by the Board of Trustees.

Property Taxes

Property taxes are attached as an enforceable lien on property as of January 1. Taxes are levied on July 1 and are payable in two installments on December 10th and April 10th. All general property taxes are allocated by the County Auditor-Controller's office to the various taxing entities in installments during the year.

The County has elected into the Teeter Plan for property tax distributions. Therefore, the District receives 100% of the secured property tax levies to which it is entitled, whether or not collected. Unsecured delinquent taxes are considered fully collectible and no allowance for uncollectable taxes is provided.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Property Taxes (continued)

Property taxes are accrued as receivables in the period when they are levied. Property tax revenues are recognized when they become available. "Available" means due, or past due, and receivable within the current period and collected or expected to be allocated soon enough thereafter to be used to pay liabilities for the current period. This period was 60 days from the end of the fiscal year.

Cash and Investments

Cash includes demand accounts maintained with a banking institution and amounts maintained with the District's fiscal agent, the County. The County does not allow the District to make independent investments of excess funds.

Inventory

Inventory consists of vaults, both uninstalled and preinstalled vaults. Inventory is stated at cost using the first-in, first-out method of accounting. The cost of vaults is removed from inventory at the time of sale. Inventory reported in the fund financial statements is the estimated amount to be used within 60 days of year end. The amount reported on the government-wide statements is the total amount available at the fiscal year end.

Property and Equipment

Property and equipment purchased or acquired with an original cost of \$3,000 or more are reported at historical cost or estimated historical cost. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives.

Structures	30 Years
Improvements and infrastructure	15-50 Years
Equipment	5-20 Years
Office furniture and equipment	3-10 Years

Unearned Cemetery Revenues

These are amounts that have been collected in anticipation of interments for which the interment has not yet been performed. These amounts could be refunded or the interment could take place in the future.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Compensated Absences

The District provides a compensated absence allowance for eligible employees. Compensated absences are comprised of the following components:

Vacation

Vacation time may be carried over and accumulated in subsequent calendar years to a maximum of 160 hours excess; accumulated hours, if any, will be cashed out in January of each year. Full-time, eligible employees accrue vacation for each hour of service following completion of their probationary period as follows:

Hours of Service	Vacation Earned Per Pay Period
0 - 4,160	3.08 hours
4,161 - 8,320	3.68 hours
8,321 - 18,720	4.61 hours
18,721 - 39,520	6.15 hours
39,521 or more	7.69 hours

Sick Leave

The District's sick leave policy permits the accumulation of 12 sick days per year. Maximum carryover to the following year is 180 days; excess is paid to employees December 1st of each year. An employee in good standing, leaving the District prior to retirement, can be paid all accumulated sick pay provided the employee has 5 years of continuous employment and the payment is approved by the Board of Trustees.

Other Post-Employment Benefits

The District does not provide other post-employment benefits to employees.

Pension Plan

The District accounts for pension expense in accordance with the requirements of GASB Statement No. 68 (GASB 68).

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fund Equity

The District-wide financial statements utilize a net position presentation. Net position balances are categorized as invested in property and equipment, net of related debt; restricted and unrestricted.

Invested in Property and Equipment, Net of Related Debt - This category groups all property and equipment into one component of net position. Accumulated depreciation and the outstanding balances of debt, if any, that are attributable to the acquisition, construction, or improvement of these assets reduce the net balance in this category.

Restricted Net Position - This category presents external restrictions imposed by creditors, grantors, contributors, laws or regulations of other governments, and restrictions imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position - This category represents net position of the District not restricted for any projects or other purposes.

The District's governmental fund statements utilize a fund balance presentation. Fund balances are categorized as nonspendable, restricted, committed, assigned, and unassigned.

Nonspendable Fund Balance - This category presents the portion of fund balance that cannot be spent because it is either not in a spendable form or it is legally or contractually required to be maintained intact. The District has the corpus of the Endowment Fund that is legally required to remain intact and therefore meets the definition of nonspendable.

Restricted Fund Balance - This category presents the portion of the fund balance that is for specific purposes stipulated by constitution, external resource providers, laws and regulations, or enabling legislation.

Committed Fund Balance - This category presents the portion of the fund balance that is used for specific purposes determined by formal action (Resolution) of the District's highest level of decision-making authority and remains committed unless removed in the same manner. For the District, this level of authority lies with the Board of Trustees.

Assigned Fund Balance - This category presents the portion of the fund balance that is intended to be used by the District for specific purposes but does not meet the criteria to be classified as restricted or committed.

Unassigned Fund Balance - This category presents the portion of the fund balance that does not fall into nonspendable, restricted, committed, or assigned and are spendable.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of asset and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Recent Accounting Pronouncements

In June 2022, the GASB issued Statement No. 101, Compensated Absences. The guidance in this statement amended the existing disclosure requirements for compensated absences. Under the new guidance, governments will be allowed to disclose only the net change in compensated absences liability. The new standard is effective for fiscal years beginning after December 15, 2023. The District is currently evaluating the extent of the anticipated impact of this standard.

In December 2023, the GASB issued Statement No. 102, Certain Risk Disclosures. The guidance in this statement identifies concentrations and constraints as items require disclosure in the financial statements. A concentration is defined as a lack of diversity while a constraint is defined as a limitation imposed on the government by an external party or by formal action from those charged with governance. The new standard is effective for fiscal years beginning after June 15, 2024. The District is currently evaluating the extent of the anticipated impact of this standard.

In April 2024, the GASB issued Statement No. 103, Financial Reporting Model Improvements. The guidance in this statement updates the presentation requirements for several financial statement items including (but not limited to) management’s discussion and analysis, unusual or infrequent items, and budgetary comparisons. The new standard is effective for fiscal years beginning after June 15, 2025. The District is currently evaluating the extent of the anticipated impact of this standard.

NOTE 2: CASH AND INVESTMENTS

Cash and investments were comprised of the following at June 30, 2024:

Cash on hand	\$	250
Bank deposits		43,381
Cash and investments held by the County		14,420,857
Endowment Fund cash and investments held by the County		1,621,123

NOTE 2: CASH AND INVESTMENTS (continued)

Investments

The District's investment policy, in conformity with applicable California General Statutes, authorizes investments in County pooled funds. The value of the position in the pools is the same as the pool shares. These investments are not categorized since the pool contains a diversified portfolio of securities within each category, as defined in the following paragraph:

Category 1 includes investments that are insured or registered, or for which collateral is held by the District or its agent in the District's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the broker, dealer, or its trust department in the District's name. Category 3 includes unsecured and unregistered investments for which securities are held by the broker, dealer, or by its trust department or agent, but not in the District's name.

NOTE 3: INVENTORY

Inventory consisted of the following at June 30, 2024:

	Units on Hand	Cost
Vaults-preplaced	2,606	\$ 708,865
Vaults	113	15,347
Vases	4	192
Total inventory		\$ 724,404

Inventory is reported in the financial statements as follows:

Current inventory	\$ 8,793
Non-current inventory	715,611
Total inventory	\$ 724,404

Current inventory is estimated as the amount expected to be used within 60 days of the fiscal year end.

NOTE 5: LAND LEASE INCOME

The District entered into a land lease agreement with a third party. The 10-year lease, entered into in 2003, allows the third party to place a static billboard on the District property. As of June 30, 2024, the lessor was treating this as a month-to-month lease under the final terms of the lease agreement. Lease income for the fiscal year ended June 30, 2024 was \$19,824.

NOTE 6: DEFINED BENEFITS PENSION PLAN

The District provides pension plans benefits for eligible employees through the New Castle, Rocklin, Gold Hill Cemetery District - Miscellaneous Plan and PEPRM Miscellaneous Plan (collectively the Plan).

Plan Description, Benefits Provided, and Employees Covered

The Plan is a cost-sharing multiple-employer defined benefit pension plan administered by the California Public Employees; Retirement System (CalPERS). A full description of the pension plan benefit provisions, assumptions for funding purposes but not accounting purposes, and membership information is listed in the June 30, 2023 Annual Actuarial Valuation Report. Details of the benefits provided can be obtained in Appendix B of the June 30, 2023 actuarial valuation report. This report is a publicly available valuation report that can be obtained at the CalPERS website under "Forms and Publications."

Contribution Description

Section 20814(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers are determined on an annual basis by the actuary, and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through the CalPERS' annual actuarial valuation process. For public agency cost-sharing plans covered by either the Miscellaneous or Safety risk pools, the Plan's actuarially determined rate is based on the estimated amount necessary to pay the Plan's allocated share of the risk pool's costs of benefits earned by employees during the year, and any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and contribution rate of employees. For the measurement period ended June 30, 2023 (the measurement date), the active employee contribution rates were 7.68% (Miscellaneous Plan) and 7.75% (PEPRM Miscellaneous Plan) of annual pay, and the average employer's contribution rate was 10.10% (Miscellaneous Plan).

NOTE 6: DEFINED BENEFITS PENSION PLAN (continued)

Actuarial Methods and Assumptions Used to Determine Total Pension Liability

For the measurement period ending June 30, 2023 (the measurement date), the total pension liability was determined by rolling forward the June 30, 2022 total pension liability. Both the June 30, 2022 total pension liability and the June 30, 2023 total pension liability were based on the following actuarial methods and assumptions.

Actuarial cost method:	Entry Age Normal in accordance with the requirements of GASB 68
Actuarial assumptions:	
Discount rate	6.90%
Inflation	2.30%
Salary increases	Varies by Entry Age and Service
 Mortality rate table	 Delivered using CalPERS' Membership Data for all Funds
 Post-retirement benefit increase	 Contract COLA up to 2.30% until Purchasing Power Protection Allowance Floor on Purchasing Power applies 2.30% thereafter.

Discount Rate

The discount rate used to measure the total pension liability was 6.90%. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 6.90% discount rate is adequate, and the use of the municipal bond rate calculation is not necessary. The long-term expected discount rate of 6.90% is applied to all CalPERS plans. The stress test results are presented in a detailed report called "GASB Crossover Testing Report" that can be obtained at CalPERS' website under the "GASB 68" section.

2025	\$ 16,808
2026	7,203
2027	105,717
2028	4,148
	\$ 133,876

NOTE 7: COMMITMENTS AND CONTINGENCIES

The District is exposed to various risks of loss related to torts; theft of; damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

There are no claims to be reported based on the GASB and GAAP requirements which require that a liability for claims be reported if information prior to the issuance of the financial statements indicates that is probable that a liability has been incurred at the date of the financial statements and the amount for the loss can be reasonably estimated.

There were no significant reductions in insurance coverage from prior years, and there have been no settlements exceeding the insurance coverage for each of the past three years.

NOTE 8: PRIOR PERIOD ADJUSTMENT

During the year ended June 30, 2024, management discovered that deferred revenues had been inaccurately recognized in prior years. Management posted a prior period adjustment to correct this error. This adjustment increased deferred revenues by \$7,882, and decreased net assets by \$7,882.
